

FALL WORKDAYS

It takes many hands working numerous hours to keep LOMIK camp properties ready to serve our retreat guests and campers. Volunteer opportunities abound! We have designated some fall workday dates to help get things at camp ready for the long winter. Pick one of the dates below and RSVP as directed. LOMIK will provide coffee, drinks and lunch. Projects include such things as the following: wood cutting/splitting/stacking, general indoor/outdoor cleaning, trail maintenance, invasive plant removal, leaf raking, light carpentry. We will also provide tools, materials and expert guidance.

Not able to make one of the designated dates. Organize yourself, your family, a group from your church or other organization!
